

Driven by your expertise.

Did you know Emergency Rooms treat up to 5,000 pool chemical-related injuries each year? Or that about 3,600 lives are lost to drowning each year?

More than 27,000 people got sick in the last 15 years from increasing outbreaks of illness linked to aquatic venues in the United States.

We have to do better. And we can, with your support.

If followed, the guidelines in the Model Aquatic Health Code (MAHC) can help reduce risk for disease outbreaks, drowning, chemical injuries, and other injuries at public pools across the country. The Council for the Model Aquatic Health Code (CMAHC) is looking for sponsors to support work that will help ensure the Model Aquatic Health Code reaches its full potential.

Contact the CMAHC today at CMAHC@CMAHC.org to discuss sponsorship opportunities for your organization. We are willing work with you to create a tailored sponsorship package for specific projects based on shared priorities and focus areas.
