

Do You Work in Environmental or Public Health and Aquatics?

Wants YOU To Join!

**Your voice CAN make a difference
by improving aquatic health and safety!**

JOIN THE CMAHC!

The CMAHC is driven by member expertise, so more members means more expertise and a better product! We need environmental health staff to become CMAHC members to help make CDC's Model Aquatic Health Code (MAHC) the best model code it can be. Even if you are not considering adopting all or parts of the MAHC, we still want your expertise to help make the MAHC a national resource!

Benefits of Membership

- ◆ Submit, comment on, and vote on proposed changes to the MAHC.
- ◆ Receive direct communication from CMAHC regarding MAHC/CMAHC issues
- ◆ Serve on one of the many CMAHC Committees
- ◆ Attend and participate in the CMAHC Biennial Conference.

The MAHC is Rapidly Becoming the Standard of Care for Aquatic Design, Construction, and Operations.

There are over 300,000 public pools in the U.S. that are potentially impacted by CDC's MAHC. As a regulator or health official, the MAHC is important to you and your community to improve health and safety. Make sure **your** knowledge, experience, and perspective is reflected in the MAHC!
