**WHAT WILL HAPPEN AT THE VOTE ON THE CODE?**

At the first *Vote on the Code* Biennial Conference, the [MAHC Technical Review Committee](#) will make presentations with their assessments of key request changes from the [more than 150 proposed changes](#) to the Model Aquatic Health Code. The
MAHC is the only all-inclusive model pool code that is data-driven, based on scientific data and best practices. It took seven years and hundreds of volunteers (many of them are YOU) to develop the MAHC, which was first published in August 2014. This Vote on the Code conference is the first to address updates.

Discussion will include a review of supporting documentation and a summary of submitted CMAHC member comments and recommendations. Key change requests will be discussed and voting by CMAHC members will begin at the Conference and continue for two weeks following.

You will also hear from Doug Sackett, Executive Director of CMAHC and Michael Beach, President of the CMAHC Board of Directors. The CMAHC is your direct conduit to advise the CDC on the MAHC and the future of aquatic regulations.
